

MIDDLEBURY COMMUNITY SCHOOLS' COMPUTER NETWORK/INTERNET ACCEPTABLE USE AGREEMENT

Computer Network/Internet access is now available for students and teachers.

We are very pleased to bring computer network/Internet system access to the Middlebury Community Schools and believe that it offers vast, diverse, and unique resources to both students and staff. Our goal in providing this service is to promote educational excellence in schools through innovation, communication, and resource sharing. This agreement is consistent with the mission statement of our school system.

The primary purpose of providing access to its computer network/Internet system is to allow Middlebury Community Schools' students, faculty, and administration the privilege of using a unique educational resource. However, this access brings the availability of material not suitable for school purposes. The Middlebury Community Schools and its employees have taken precautions to avoid direct links to unsuitable materials. It is impossible to control all materials on a global network, and an industrious user may discover controversial information. We firmly believe the valuable information and interaction on this worldwide network far outweigh the possibility that users may obtain material not consistent with the educational goals of the school district.

The purpose of this Agreement is to ensure that all who access Middlebury Community Schools' computer network/Internet system will use this unique resource appropriately. This Agreement establishes an acceptable use philosophy and standard of conduct to which all Internet and network users must subscribe and follow any time they access the computer network/Internet system regardless of the location from which the user is operating. This Agreement applies to each user of an account provided by the Middlebury Community Schools. It is the user's own responsibility to comply with these "rules of the road." Use of the school corporation's computer network/Internet system demands that users adhere to the following requirements.

REQUIREMENTS

At school, responsible users shall not:

- use the school corporation computer network/Internet system to perform any act that may be construed as immoral, illegal, or unethical, including unauthorized access to other systems or sites.
- deliberately cause damage to computer equipment or to software or help others to do the same.
- cause or attempt to harm, modify or destroy another user's data, information or materials.
- exchange or use other user's account password or other access codes.
- intentionally upload, download or create a computer virus.
- harass other users. Harassment includes, but is not limited to, sending unwanted e-mail, participating in conversations or chat rooms in which the theme or essence includes sexual, racial or ethnic slurs and innuendoes. (This will be considered a 3rd level violation)
- under no circumstances should a user send or cause to be sent via internet e-mail or any other media, information of a personal identifying nature – his or her own or that of any other person (e.g. Names, addresses, phone numbers, etc.). Remember, e-mail is not a private file!
- deliberately access inappropriate materials or show others how to do the same. If any user should find or learn that another user has found materials that may be deemed inappropriate or illegal, the user shall refrain from downloading or otherwise transferring the material, and the user shall not identify or share the location of the material with any user other than the appropriate adult in charge.
- buy or sell products or services on the Internet.

At school, responsible users shall:

- respect the privacy rights of other users' files and not access or view those files without the owner's clearly stated permission.
- respect and uphold copyright laws
- follow the direction of the appropriate adult in charge and follow the established procedures to access the computer system.
- seek the advice of the appropriate adult in charge if questions arise.
- be polite and use no abusive or offensive language.

RESPONSIBILITIES

The user assumes full responsibility for the consequences of his or her own actions and activities while connecting or being connected to the computer network/Internet system. All student users of adequate age and their parents and guardians must sign the Middlebury Community Schools' Computer Network/Internet Acceptable Use Agreement. There are to be no exceptions and a student who fails to provide the school with an appropriately signed agreement will forfeit their access privileges. To ensure user compliance with these guidelines, the corporation reserves the right to examine and to access student held computer disks and floppies, files, and accounts, as well as all data stored in the machines involved in the Internet or network.

CONSEQUENCES

Users of the Middlebury Community School Corporation computer network/Internet system should be aware that they are embarking into an electronic global community and their actions reflect upon the reputation of their school.

- All users have the responsibility of complying to a strict ethical and legal standard of conduct.
- All instances of abuse will be reviewed by the Building Principal or his/her designee.
- Anyone abusing the connection will be suspended from computer network/Internet system access and may be subjected to further disciplinary action and/or, if appropriate, a fine, jail sentence, or any combination of the preceding consequences.
- Other disciplinary actions may include, but are not necessarily limited to, removal from the activity for the balance of the exercise, removal from class, after school detention, in-school or out-of-school suspension, or expulsion.

The Middlebury Community Schools prohibits the illegal distribution, copying, pirating, of possession of software in violation of the copyright laws. Anyone transferring such files through the computer network/Internet system or anyone whose accounts are found to contain such files shall lose the privilege of using the service in accord with the above-described consequences. Also, such offenders may be turned over to the appropriate law enforcement agency. In some instances, the electronic transfer of certain materials is illegal and punishable by a fine, jail sentence, or both.

VANDALISM

Vandalism will result in the cancellation of privileges and any additional disciplinary action deemed appropriate. Vandalism is defined as intentionally defacing, disassembling, or destroying any part of the computer hardware. Students are not to move any cables, switches, and plugs associated with the network. Vandalism also includes any attempt to harm or destroy data of another user, the MCS network, the Internet, or any other connected agency or network. This includes, but is not limited to, intentional uploading,

downloading or creation of computer viruses. Payment for repair or replacement of damaged hardware, or for services needed to undo software changes, may be required of the offender.

WARRANTY

Middlebury Community Schools makes no warranties of any kind, express or implied, for the services it is providing or for the reliability of the data connection. The Middlebury Community Schools will neither be responsible for any damages incurred to any equipment, software, or to any other materials not owned and housed at one of its educational facilities nor will it be liable for the actions of any user whether while accessing or while connected to the computer system, including the Internet or network, including but not limited to, any loss or corruption of data, service interruptions, user errors or omissions, or for the consequences whether resulting directly or indirectly from a user's access to any Internet site or service, or for any other service failures or access problems. The corporation takes no responsibility for any information, materials, programs, or files transferred through the computer system, including the Internet and network. Each user shall assume full responsibility for their actions associated with the user's computer system use. Middlebury Community Schools is not responsible for any financial obligations resulting from use of school corporation resources and accounts to access the Internet.

To the extent that proprietary rights in a work product would vest in the student upon creation, I agree to assign those rights to the Corporation.

The Middlebury Community Schools reserves the right to change this Agreement. Notice of any revisions of those rules will be made available in the same manner as are the policies of the corporation, the rules and regulations of the individual school buildings, and the student handbooks.
