Northridge High School
Textbooks for Students in an IB Science, English, Math, German or Spanish Class.

For the 2021-2022 school year, any student who is enrolled in an IB course must purchase class books by their own methods. The school will not purchase the books or have a rental plan. We have financial scholarship opportunities for those who apply and qualify. In addition to the textbooks, these classes may also have a school fee assessed for materials consumed by the students during the school year such as lab items. These fees will be assessed through book rental.

This purchase plan is being implemented at the request of students and families that want to try to save money by perhaps finding a used text online or from a student that previously took the class. This also allows the student to keep the text for future reference or to sell the book after the completion of the class. The information listed below is being provided to assist students in finding the correct materials. Students are encouraged to pay close attention to the ISBN and edition information. If the student has questions, please contact the teacher of the class or an assistant principal in the high school office. Students are encouraged to make their purchases early to avoid delays in delivery as students are expected to begin the school year with all required texts.

Please reference the following page for information specific to each IB course listing for acquiring text materials. The courses listed are the only IB classes that students are to purchase their own materials for this school year.

This letter and the links can also be found on the Northridge IB Website, under the Current Announcements section on the front page of the site.

STUDENTS MUST HAVE TEXTBOOKS ON THE FIRST DAY OF CLASS
